#### Global Chronological Diagram

Traditional chronology.	Biblical chronology.	Chronicle C <sub>4</sub> on the GCD, years A.D. 1,778- (or $\approx$ 1,800-) year backward shift
Chronicle E on the GCD in [24], years B.C.; schematically represents the "modern textbook". See Part 1	Chronicle B on the GCD, years B.C. 1,800-year forward shift. The dates of the events listed below are shifted forwards due to the statistical parallels discovered by the author. In addition to the shift, there occurs identification of events with the left column and, therefore, general shortening of the history. See Part 1
